

Dear Laurel Preschool Families,

We will be offering toothbrushing for your child at school as we update our policies and procedures according to the Massachusetts Department of Early Education and Care.

606 CMR 7.11 (11)(d): Educators must assist children in brushing their teeth whenever they are in care for more than four hours or whenever they consume a meal while in care.

This regulation applies to programs that attend for more than four hours per day and to programs that children have a meal (not a snack) while in care, regardless of the length of time the children are in care.

Please indicate below your preference for your child: _____
Child's Name

_____ Yes, I would like my child to toothbrush at school

_____ No, I do not want my child to toothbrush at school
